ADVANCED LIVE SURGICAL & PROSTHETIC WORKSHOP

ROBOTIC NAVIGATION IN DENTISTRY

DECEMBER 16TH 2026
WEDNESDAY 9:00 AM TO 6:00 P.M

medanta
MEDICITY HOSPITAL
GURUGRAM

NAVIDENT EVO

Presents

COMPREHENSIVE

Surgical & Prosthetic Navigation Solution

New Era of Precision Dentistry

Technology will not Replace Clinicians, but those Clinicians who use Technology will Replace those who do not.

LEARNING OUTCOMES

- Introduction to Dynamic Navigation Technology in Dentistry.
- Indications, Possibilities, Trends & Latest Advancements
- Navident Surgical & Prosthetic Workflow
- Understanding Navident Technology Protocols & Treatment Planning & Surgical Software in Micro-Endodontic Surgery, Socket Shield, Bone Augmentation, Sinus Lift & Advanced Surgical Procedures, including Zygoma & Pterygoid Implants
- Clinical Case Studies & Discussions.

- Full-Arch Implant Solutions with Photogrammetry Technology & Protocols

LIVE SURGERY ON PATIENT.

Learn How To Collaborate:

- Surgeon
- Restorative Dentist
- Dental Labs in Achieving Perfection

through Navident & Micronmapper workflow

Hands-On Demonstration:

- Treatment planning using Navident Software
- **Live Surgical** Implant Placement On Patients with the **Navident 4.0 EVO System**.
